

Eligibility & Community Guidelines

Purpose of MyOpenDirector

MyOpenDirector is a professional platform designed to support individual directors, aspiring directors, and governance professionals to stay informed, stay visible and stay ahead of board opportunities.

The platform is intended for personal, individual use by people engaged in, or actively progressing toward, board and governance roles.

Who the platform is for

Membership is generally intended for:

- Current company directors and board members
- Aspiring or emerging directors preparing for board appointments
- Individuals seeking to develop or maintain a professional board profile

Eligibility review

All profiles are reviewed to ensure alignment with the purpose of the platform. Verification decisions may consider whether an applicant:

- Appears to be acting in an individual professional capacity
- Is engaged in governance-related or director-level work or progression
- Aligns with the intended professional community of the platform

We reserve the right to decline or revoke access where an application does not meet these criteria.

Appropriate use of the platform

MyOpenDirector is designed for individual professional development and networking within the governance community. Accounts must not be used for:

- Business promotion or lead generation
- Organisational purposes
- Automated, bulk, or commercial scraping or data extraction
- Misrepresentation of identity or professional status

Where we reasonably suspect a platform is being used for non-individual or commercial purposes, we may suspend or decline access.

Alternative services for organisations

Organisations seeking governance intelligence, enterprise access, and additional insights including remuneration statistics are able to sign up to our enterprise offering at www.opendirector.com.au

Review requests
